card2brain in Brief

card2brain is the clever flashcard platform for your school:
Create flashcards online, share them with your class, and revise them on the app.

User Opinions from the App Stores

★★★★★

Fun learning

Great app, also for teachers who want to prepare some alternative learning material.

★★★★★

Simple, fast and pretty

I was convinced by the website and the clean design. The flashcards are very easy to create and for synchronising, you only have to enter your login data.

★★★★★

Immediate support, great app

You can even learn offline. That's more efficient than with paper flashcards when you're on the move. There's also the feature for typing answers as exact text, which I also find more efficient than learning with paper flashcards!

The Clever Flashcard Platform for Students and Teachers

Online and Mobile Learning

- Create and study flashcards online.
- Download the free app for iOS, Android or WP-8.
- Synchronise the app with the web profile.
- Study offline on the smartphone and tablet.
- Save the learning progress in the cloud.

Shared Learning

- Create flashcards in common work.
- Form learning groups.
- Share flashcards in class.
- Comment on and rate flashcards.

Successful Learning

- Revise your flashcards anywhere, at any time.
- Work yourself through the questions in a fun and easy way.
- Receive immediate feedback on wrong answers.
- Study according to the scientifically recognised principle of spaced repetition in 5 compartments.

Flexible Learning with Educational Software

- Study with 3 types of questions (MC, text, exact)
- Reverse the direction of learning (question ↔ answer)
- Teacher-centred scenarios
- Learner-oriented scenarios
- Flipped Classroom
- Bring Your Own Device (BYOD)

Training for Different Types of Skills

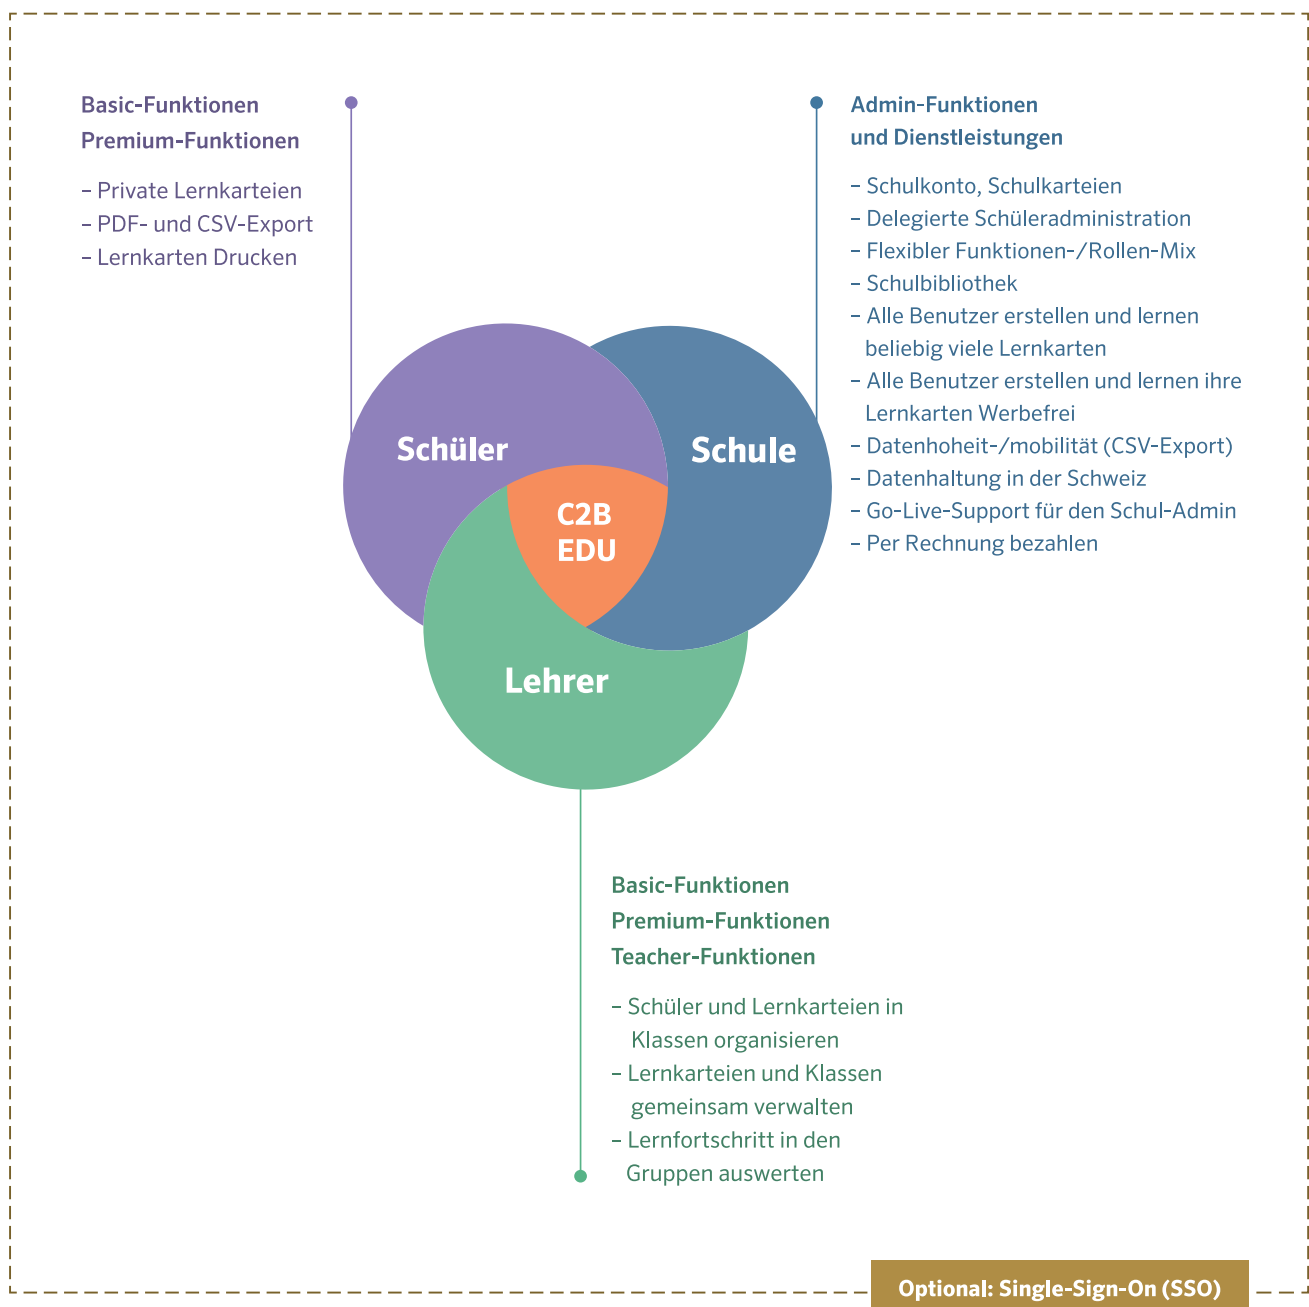

- Practise spelling and phrasing
- Learn languages and definitions
- Learn with pictures and formulas
- Train how to use software and develop media literacy

card2brain Educational – Our Offer

card2brain Educational is the multi-user licence for your school. The licence includes free combination of "Premium" and "Teacher" subscriptions at an attractive inclusive price per year.

card2brain Educational offers you the possibility to provide a high-quality and ad-free Swiss educational software for all your school's teachers and students. Your benefits: lowest prices per user and year, additional administration, publishing and archiving features for your company, and payment by invoice.

Support

We offer you a 1-hour free go-live support once for setting up the company's account.

For any technical support, you can define a contact person responsible of communicating with card2brain.

Unless otherwise agreed upon, end user support at your company is ensured by an internal contact person.

Training Courses

Our training courses support the successful introduction of card2brain at your company.

They encourage teachers and admins to make optimum use of the software and create the best possible conditions for ensuring the best possible learning results of your students and employees.

We will be happy to arrange a course at your place.

Single-Sign-On (SSO)

Would you like your users to be able to log on to card2brain via an SSO mechanism? Upon request, we can connect card2brain to current ID management systems.

Login via SWITCHaai

Users log on to card2brain.ch with the access data of the aai partner organisation. By logging on via SWITCHaai, the membership of the organisation and the role within the organisation are automatically reproduced on card2brain.ch:

- Students have access to all Premium features
- Teachers have access to all Premium and Teacher features

SSO Integration on Other Platforms

Users register on another platform and may access your company's sets of flashcards from there, without registering on card2brain.ch.

Contact

Please get in touch for any further information. We will be happy to answer your questions under info@card2brain.ch
